Puyallup, Washington 98372

Dear Jim and wife:

It was good to get your recent literary and theological effort on Wyciffe. I have read it very carefully and much of it twice.

I have found it to be very enlightening and helpful. I hope it gets a very wide circulation. I would suggest you try to get Evangelistic Educational Ministries of whom Gary Kenner is president, to publish it.

I think you should also write a pamphlet showing the origin, what it is, its effect and the depth of the Separatist movement and their theology. In reading many Christian English books on theology or Christian subjects, I often came across the word and most of the time used in a pejorative sense. Not until I read the book, "The Light and the Glory", did I seem to get or read a fair but superficial treatment of the Separatist.

I think it is sorely needed and you are the only one that can do it that I am aware of.

I spoke at Western Washington University in Bellingham on March 12,13 and for the Republican Steering Committee in Bellingham on March 14. Also gave four lectures in Tacoma the 16th and 17th. If I had known your address, I would have let you know I was there.

Keep up your good work. Kindest personal regards.

Cordially in Christ,

*Harry Conn*
